

## Scientific Research Activity at "POLIS" University for years 2012-2015

### Misioni

The mission of our University is, the provision of "Knowledge, Technology, and Leadership's". Chat with First and applied scientific research, develops Polis University promotes "scientific excellence and innovation". Through the academic education improves creative competence and overarching.

POLIS also provides postgraduate studies in Engineering, Energy efficiency, IT and Applications Parametric, Urban Design and Landscape, Restoration and Conservation of Cultural Heritage, Housing and Social Affairs, Spatial Planning and Applications GIS, Urban Management and Good Governance or Public Administration, Private Entrepreneurship and Leadership.

POLIS University offered studies in Bachelor, Professional and Scientific Masters and Doctoral Programs.

POLIS University promotes "research" by investing in the inclusion of "Research and Technology" in all study programs. POLIS encourages interaction between IKZH POLIS (Institute for Research and Development), faculties and joint projects with other international universities and research institutes, and other partners from the business. POLIS University has established research and innovation policies developing 7 research units, starting with the organization of Origin:

Co-PLAN, Institute for Habitat Development, followed by Metro \_POLIS, architecture and design studio; independent structure near POLIS as Sustainability \_LAB; Multimedia-Art-Design, Center & Gallery; POLIS \_Press information center and publications, Doctoral and Innovation center and center of Applied Research.

## Scientific Research Activity at "POLIS" University for years 2012-2015

### The Scientific Council

POLIS, as to all academic institutions, has in its infrastructure, "the Council of Professors" comprised of Professors and Academics tribute, which are ruggedized known for the activity of them in various fields, who adjust to the focus areas priority and specialties of POLIS University.

In addition to consolidating the role of quality in the academic, the Council plays and the role of "Scientific Council" for IKZH\_POLIS, being open to debate and to other academic or scientific staff, who have practical experience.

The Council of Professors is responsible, inter alia, the organization of the Program of "Doctorates" near POLIS as a Graduate of the University of Ferrara in common in Italy. This program is organized near IKZH of practical reason, to constitute a scientific research links with the academic process and applied research.

## Scientific Research Activity at "POLIS" University for years 2012-2015

### Methodology used

Initially it took place with the knowledge of the history and structure of POLIS University via web..

A. Evaluation of scientific research at the University POLIS began with the selection of some international indicators provided in today's contemporary literature for assessing research in several Balkan countries, Europe and America.

Furthermore, we had many meetings with interviewers institutions (Academy of Sciences, public and private universities, etc.) and individuals who have been part of scientific research estimates instead.

During these meetings have also been simultaneously interviews about:

- scientific journals (point „C“)  
and the
- patent process ( point „D“)

for the results obtained from research and innovation.

Literature used is as follows:

1. *“Learning from Science and Technology Policy Evaluation”*, 2003, eksperiencia nga ShBA dhe Europa, grup autorësh, Kapitulli 7: “The evaluation of university research in the United Kingdom and the Netherlands, Germany and Austria, me autor David F.J. Cambell.
2. *“Indicators of Internationalisation for Research Institutions: a new approach”*, një raport nga “European Science Foundation Member Organisation Forum on Evaluation: Indicators of Internationalisation” (workshope të këtij Forumi përfunduar më dhjetor, 2012).
3. *“Research, Technological Development and Innovation Evaluation Standards”*, 2012, EVAL-INNO projekt i Komisionit European.
4. *“The measurement of scientific and technological activities: Proposed Standard Practice for Surveys on Research and Experimental Development”*, Frascati Manual, 2002.
5. R&D Questionnaire , according to OECD indicators, 2013 INSTAT, UNESCO, Agency for Research, Technology and Innovation (ARTI).

## Scientific Research Activity at "POLIS" University for years 2012-2015

### Literature used continue

6. "Criteria for the accreditation and external evaluation of higher education institutions and study programmes", 2014, Slovenian Quality Assurance Agency for Higher Education.
7. "Review of the slovenian quality assurance agency for higher education (SQAA)", 2013.
8. "Manual for experts of the Slovenian Quality Assurance Agency for Higher Education", 2013.
9. "Research Agenda Polis University", 2014 – 2015.
10. "Self-assessment Report 2012-2013 Department of biology and Research Center of Wildlife". FNS "11. Research ", pages 56-90, February 2014, Prof. A.Miho

## Scientific Research Activity at "POLIS" University for years 2012-2015"

**B. After studying the literature and completion of meetings and interviews were prepared two questionnaires, one for the Department (Faculty base) and an individual with some international indicators selected.**

**The consultant held two meetings with two faculty deans' offices to present and explanations two necessary "Questionnaires" to begin the process of completing these questionnaires.**

**Attached are questionnaires completed in two copies, one in Albanian and one in English for foreigners working at POLIS University.**

## Scientific Research Activity at "POLIS" University for years 2012-2015"

- C. Regarding scientific journals. The Consultant has contacted Academy of Sciences, Agricultural University of Tirana and European University of Tirana. From Academy of Sciences is received the study that was done within the standards that must meet these magazines (Acad. Prof. Dr. Salvator Bushati). The material is attached. Are obtained copies of the magazines of Academy of Sciences and the Journal Agricultural University of Tirana that gave Group meeting dated July 13, 2015. Regarding the criteria of impact factor is the material attached: "Impact Factor".
- D. Regarding patents: It's got all the information necessary and sufficient for all application procedure on "web" of the Directorate General of Patents and Trademarks (DGPT). Was contacted and one legal expert (there are about 140 such experts that have the exclusive legal right to implement all procedures of the patent). The materials are attached.

## Scientific Research Activity at "POLIS" University for years 2012-2015

The department has good activity on scientific research and in publishing work and in the same time manages some national and international projects. Participation in 45 scientific conferences at home and abroad, is a high indicator of the commitment of all staff in research activities. The department has 1 Prof. Dr. 1 Prof. As. Dr. 1 Doc. (Dr) and 2 under "PhD". Department members present authorities in their fields and are a national potential that can do consultancy for specific areas of work, both national and international.

2 members of the Department have led to 7 Msc. during period 2013-2015. Statistics show that not all staff with the legitimacy to lead "Master of Science" has leadership. Statistics show that not all staff with the legitimacy to lead "Master of Science" has leadership. Include all eligible academic staff in the process of keeping the "Master of Science" will increase significantly the participation of students in the search.

There are shortcomings in scientific research documentation.

Regarding the cooperation with the business community,, Department has a good design and construction practices that students develop. Specific projects have been developed for particular sectors involving the students.

Analysis "SWOT" presented by the head of the Department should be more detailed and substantiated. In this analysis emphasized the necessity of reducing the average age by increasing academic staff with young teachers.

## Scientific Research Activity at "POLIS" University for years 2012-2015"

### **C. Department of Research Unit in Engineer and Design (MAD Center)**

Research Unit in Engineer and Design (MAD Center) is one of three units of FAD\_Faculty of Architecture and Design, near Polis University. The center aims to contribute in two main directions: to further develop methodologies construction process education subjects in this Faculty, and promoting integration of research and teaching to experimental and innovative products. For this purpose, it coordinates with Faculties and with "IKZH" Institute. MAD is an abbreviation of fields of interest: Multimedia, Art and Design. From the structural point of view MAD includes:

- Gallery of Contemporary Art and Alternative (MAD\_Gallery) where well-known and young artist membership expose the alternative concepts;
- 2P\_Lab - a new Initiative in construction, that is aimed at advanced research for building prototypes and patent applied in construction design.

MAD also organized, in cooperation with Polis\_PRESS and IKZH periodical publishing of specialized construction MAD\_Magazine and does specialized research in matters of applied art and design.

## Scientific Research Activity at "POLIS" University for years 2012-2015

The department has good activity on scientific research and in publishing work and in the same time manages some national and international projects. All academic staff is engaged in all research activities. The department has 2 Prof. Dr. 1 Doc. (Dr) and 2 under "PhD". Department members present authorities in their fields and are a national potential that can do consultancy (2 Prof. are currently consultants in their fields) for specific areas of work, both national and international.

Department lacks the publication of Monograph although there professors with experience in teaching and research. There are gaps and research documentation. Cooperation with business in this department exists but is not mentioned in the questionnaire Department.

The Department has made an analysis "SWOT" good. A vulnerability expressed in this Analyze "SWOT" has been and exists research documentation, as well as the individual and department level. But the lack of monographs should be brought out. Department expressed on this analysis a clear plan for research for the next three years envisaging the publication of Monographs.

## Scientific Research Activity at "POLIS" University for years 2012-2015"

## Scientific Research Activity at "POLIS" University for years 2012-2015"

The department has good activity on scientific research and in publishing work and in the same time manages some national and international projects. Department has in academic staff 3 Dr and 2 doctoral in process.

There are disadvantages to research documentation and deficiencies in the publication of Monographs.

Not all academic staff is engaged in all research activities, especially in research projects.

The Department has made an good "SWOT" analysis where weakness has cited a lack of capacity for writing international projects and request to increase the capacity of academic staff of the Department for their writing projects concerning to international programs. Another weakness, expressed in this "SWOT" Analyze has been and it is the research documentation, as well as individual and Department level.

Department expressed on this analysis a clear plan for research for the next three years.

## Scientific Research Activity at "POLIS" University for years 2012-2015”

### C. Research Unit in Spatial and Sustainable Development (Sust Lab)

#### INNOVATION Factory

INNOVATION\_Factory is one research and innovation center near the FPMMU (Planning, Environment and Urban Management Faculty), specializing in subject of sustainability as a whole, includes social, economic, environmental, energy, structural, in areas of interest and membership U\_POLIS specialties. The center collaborates with two Faculties and IKZH and contributes to two important columns membership:

- Scientific developing of the education and research methodologies in these areas;
- Promoting scientific and applied research in these areas with emphasis on innovation and experimentation.

Sust\_LAB has these key priorities in terms of organization:

- "2E-Unit" A group unit that focuses on issues of energy efficiency in buildings on and in scale city;
- "Milieu\_Unit" demonstration Authority Unit of environmental issues;
- Preparation and publication of a scientific periodical specialized construction HABITAT\_Magazine, in collaboration with IKZH and Polis\_PRESS
- Conduct research, experimentation and testing.

## Scientific Research Activity at "POLIS" University for years 2012-2015

### III. Institute for Research and Development (IRD\_POLIS)

Executive Director: Dr. Dritan Shutina; Deputy Director: Dr. Elvan Dajko

Research and Development Institute (IRD\_Polis), conducting applied and research projects, membership-funded not only by POLIS University, but also by partners and local institutions (public and private) or as well as international. It has three departments:

- The center of scientific research (a PhD program, Joint-Master Program, the Professional School Program);
- Center of Applied Research (In cooperation with Co-PLAN Institute and Studio Metro\_POLIS);
- Information Resource Center (where included within the library and publications compartment Polis\_PRESS).

## Scientific Research Activity at "POLIS" University for years 2012-2015”

IRD also coordinates activities with the faculties, which construction Scientific Research performing both in function of the academic process and through two specialized units: MAD Center & Gallery (Multimedia, Art, Design); and SUST\_Lab (Laboratory of Environmental Sustainability, Structural and Energy). POLIS University and IRD Research which aims to develop excellence in research, that stimulates innovation and support development and the local economy. Priority of scientific research in the IRD and POLIS University are: "Intelligent Design", " Spatial and Sustainable Planning" and "Innovation" that fed through projects of scientific, academic and applied research.

This institute, which is led by Executive Director IRD\_POLIS and Scientific Council, has the object of his work:

- **Compilation of the final draft of U\_POLIS annual plan for research – scientific work;**
- **Conducting research and development activities;**
- **Implementation of applied research, innovation and scientific reports within the scope of coverage;**
- **Assisting in the implementation of programs of second and third cycles**

## Scientific Research Activity at "POLIS" University for years 2012-2015

### A. Scientific Research Unit

Scientific research in "Polis" University performed as an activity stimulated interwoven in all Units and university activities. Nevertheless "scientific research" is structured along these columns:

- IKZH, through relation department organizes the program "PHD", as well as hand scheme program of assistance "PhD\_Sandwich" (yang scientists who perform in schools of EU, with the support of POLIS University). In addition to this, stimulated practical and applied research in the respective department and in cooperation with Co-PLAN Institute, the Studio Metro\_POLIS.
- POLIS University stimulates, through the unit's rated Polis\_PRESS, many publications that document this Research, includes scientific journal Forum A + P.
- Faculties stimulate also "Academic Research", that aims to improve the methodology for education and research process subjects in the framework, as well as "Experimental Research and Innovation" through centers specialized in scientific research, as MAD\_Center and SUST\_Lab.

The interaction and coordination in IKZH level is quite important component of the success of scientific research. The principal research topics of the moment are:

- Spatial Planning and Sustainable
- Intelligent Design
- Innovation and patent

## Scientific Research Activity at "POLIS" University for years 2012-2015

## Scientific Research Activity at "POLIS" University for years 2012-2015”

### B. Applied Research Unit

POLIS University has an experience admirable membership in Applied Research, hand thanks to its origin from the Co-PLAN Institute and Studio Metro\_POLIS. Research Applied is also part of the new culture in POLIS also. Research Applied is structured through several columns:

- IKZH organizes applied research through contracted projects by itself or in collaboration with Co-PLAN and Metro\_POLIS by complementing among themselves during the work in different projects.
- Applied research carried out by the faculties and their respective research Units and projects on which reflect social responsibility that are not addressed by IKZH and his respective department.
- Research Applied and practice professional carries out in itself Units strategic partner, as Co-PLAN and Metro\_POLIS, Chat which engage the on concrete projects and internships, students and members staff of the university, by all study programs that POLIS University offers.

Applied Research covers a full spectrum, in accordance with the areas of interest of the POLIS University, ranging from applied design, marketing and image, architecture, urban planning, landscape, urban management and good governance, decentralization and expertise environmental, etc.

### C. Information Resource Unit (POLIS PRESS)

Information Resource Center (POLIS Press) is a specialized department on two pillars:

- **Biblio\_POLIS**, university library version "hard" and "soft". That the library contains a broad range widest books and magazines for professional membership architecture, design, the construction, urban management, etc., but also on different publications the fields of economics, philosophy, art, etc. which meet the needs of students and staff of coherent information of continuing interaction with all areas. This library also includes online versions as: Log-In library: Biblio\_POLIS partner: [www.culturetheque.com](http://www.culturetheque.com)
- **Periodic Scientific POLIS University**, publishes Scientific journal of Architecture and Urban Planning "Forum A + P", recorded by CAAT / MES, Decision Nr. 153, dated 08.10.2010 and registered with the ISSN International in France. journal has the Council of Editorial and Publishing. It is published in no less than 2-3 numbers per year, in combination lingual; Albanian and English and is well-illustrated. The periodical has scientific articles received on a regular International Academic – Scientific basis and informative articles and essays

## Scientific Research Activity at "POLIS" University for years 2012-2015

Periodical Forum A + P, there are 2 specialized supplements:

*MAD Magazine* – A magazine specializing in issues to Multimedia - Art - Design, also with the International ISSN, recorded in France: [MAD Magazine 1](#), [MAD Magazine 2](#)

*HABITAT Magazine* – A magazine specializing in environmental issues and sustainable development, also with the International ISSN, recorded in France: [Habitat Magazine 1](#)

## Scientific Research Activity at "POLIS" University for years 2012-2015”

### CONCLUSIONS AND RECOMMENDATIONS

- 1. POLIS University has a "Research Agenda Polis University", from 2014 to 2015, very good and contemporary after including many of the international indicators used today to evaluate research activity.**
- 2. POLIS University has a fairly high mentality to realize related research and contracted research projects, simultaneously with the implementation and broad participation of conferences, workshops and scientific symposia. POLIS University should identify all activities carried out with publications and written reports by the moderators of these activities.**
- 3. POLIS University has a very good international cooperation for teaching as well as for research. POLIS University has many international scientific projects in various programs of the European Commission as TEMPUS, Erasmus, HORIZON 2020 and beyond.**
- 4. POLIS University has only one project in the framework of Horizon 2020 and should increase the participation in this program through joint applications with project proposals with numerous foreign partners it has.**

## Scientific Research Activity at "POLIS" University for years 2012-2015”

5. POLIS University has 18 academic staff members who are in the process of doctoral, 16 of whom hold doctorate in collaboration with universities in the Republic of Italy, and end up in the years 2016 to 2017. It is a significant figure to increase significantly the quality of academic staff and research.
6. POLIS University has some scientific journals for publication of scientific results and engineering profiles. The magazine "A + P" is a scientific journal known by the Evaluation Committee of Academic Titles (ECAT) and received the status of ISSN. This journal can be ready to apply for "Impact Factor" being written all in English and have "access" to the Internet.
7. POLIS University has a very good infrastructure for teaching and research. Regarding the POLIS University laboratory infrastructure should improve existing laboratories with new equipments (laboratory of energy efficiency) as "tables" as well as portable devices. They should serve as laboratories for students in three cycles and for academic staff but to think and to services provided by third parties and income. It should be noted that many of the works on research projects completed with innovation. Therefore, the patent should be considered that comes from this research.

## Scientific Research Activity at "POLIS" University for years 2012-2015”

8. POLIS University has a good library for students and academic staff. Besides having the library collaborations with titles that come regularly should increase this number even more new subscriptions becoming a member of several international networks

9. The scientific documentation is a weak point of POLIS University and to be arranged very quickly. Every individual should have his files for teaching and for research. Each research activity and any project must have separate files should be kept where all official documents and "products" (reports, brochures, articles, etc.) produced by each project.

10. POLIS University has a tradition to hold any early September a "Workshop" on the developments and innovative research ideas that every member of the academic staff has for a period of 1-3 years. Workshop conducted earlier this year, on 7-8 September 2015, where he prepared, "Polis University Research Agenda" for the years 2015-2016-2017 there are some changes that have to do with:

- Review of overall priorities for the next three year period
- Review of priority areas of research under faculty concerning to update them if is necessary.
- Breakdown of publications, scientific research or development activities designed to increase the accuracy of "control", evaluation and reporting.
